

LED Flashlight

PA-0001 5W focus adjustable Magnetic Base Flashlight

- Designed with a unique flexible neck that allows you to mount the magnetic base and bend or twist the light into the desired position
- Externally and internally designed for waterproof, harsh conditions and dirty environments, accord with IP54 regulation
- Focus adjustment, switching and dimming button, unique power dial to adjust from 0-260 lumens or anywhere in between
- USB rechargeable, charge indicator for convenience

PA-0002 8W Flexible COB LED Magnetic Base Flashlight

- Designed with a unique flexible neck that allows you to mount the magnetic base and bend or twist the light into the desired position
- Externally and internally designed for waterproof, harsh conditions and dirty environments, accord with IP54 regulation
- Switching and dimming button, unique power dial to adjust from 0-300 lumens or anywhere in between
- USB rechargeable, charge indicator for convenience

BENEFITS OF COB LEDS

- COB (Chip On Board) LED
- Extremely efficient as dispersing heat, maximizing tool longevity
- Higher lumen-per-watt ratio than SMD LEDs
- Uniform beam of light reducing shadows

Specification

Model No.	Battery	Charge Plug	Power	Illuminance	Charge Time	Active Time	Tool Length		Net Weight	
			W	LuM	Hour	Hour	inch	mm	lb	g
PA-0001	3.7V 2200mAh	AC 100-240V DC 5V(1A)	5	260	10	4	15.6	395	0.5	230
PA-0002	3.7V 2200mAh	AC 100-240V DC 5V(1A)	8	300	10	3.5-4	17.5	445	0.5	220

PA-0003 15W COB LED Magnetic Base Slim Flashlight

- 360° Swivel High strength magnet base can be locked into any position and 180° convenient hanging hook
- Externally and internally designed for waterproof, harsh conditions and dirty environments, accord with IP54 regulation
- Switching and dimming button, unique power dial to adjust from 0-350 lumens or anywhere in between.
- USB rechargeable, charge indicator for convenience

PA-0009 8W COB LED Inspection Lamp Magnetic Base Flashlight

- Ultra bright with 8W COB-LED, ideal for repair work and inspection in the automotive, trade and industrial sectors
- Switching and dimming button, unique power dial to adjust from 0-240 lumens or anywhere in between
- Magnetic base and hook, tool length only 215mm for convenience work
- Low heat emission, long service life and shock-proof casing
- Externally and internally designed for waterproof, harsh conditions and dirty environments, accord with IP54 regulation
- USB rechargeable, charge indicator for convenience

PA-0010 8W Multi-Functional Adjustable COB LED Head Flashlight

- Acceptable operating temperature from -5°C to 50°C
- 360° swivel clip equipped with magnet to adjust the direction of light beam
- The headlamp is 120° adjustable for oriented lighting
- Adopt COB lamp which is low glare and high brightness
- The power switch has variable fluid adjustment from 0-350 lumens
- Passed IP64 protection grade takes tool durability to the next level
- Using 3pcs AAA alkaline batteries
